

# Gath- Waterproof Communication

## Colours

The Gath Rescue Comms Headset comes in two models  
Gath-Jetrescue DS-1 COMMS Headset  
Bone Conduction Speakers  
Professional Radio Claw Adaptors  
Water Proof PVC bag with sealed cable in.  
Gath EN1385 Approved Helmet or  
Gath Surf Convertible Helmet

Gath-Jetrescue DS-2 COMMS  
Bone Conduction Speakers

Bone Conduction Microphone  
Heavy Duty two way push to talk switch  
Professional Radio Claw Adaptors  
Water Proof PVC bag with sealed cable in.  
Gedi EN1385 Approved Helmet or  
Gath Surf Convertible Helmet

Bone conduction speakers or mic-speakers transmit sound through the wearer's cheekbone, ideal for high level noise environments such as strong wind, helicopter rotors or engine noise. A range of claw jack adapters connect the Gath-Jetrescue Headset to most professional radios.
